**Bridge Academy**

Bridge Academy Education Centre

## OUR TEACHING PRINCIPLE

Young children have remarkable ability to learn. The first six years of a child's life are the most critical period for nurturing a child's natural curiosity and laying the foundation for all future development. Children of the Bridge Academy Pre-School Programme are encouraged to learn through inquiry and hands-on experiences.

## HOW CAN IT BENEFIT MY CHILD

Each child has his own unique strengths and weaknesses. Bridge Academy Pre-School Programme benefits children by providing a small class ratio (1:4), in-class differentiation and an Individualized Education Program (IEP) such that children can learn at their own pace. Children at Bridge Academy learn to appreciate their own strengths and weaknesses, as well as those of others.

## OUR CURRICULUM

Bridge Academy has designed its Pre-School Programme to develop the diverse talents of children up to 6 years old. It is based on the Early Years Foundation Stage (EYFS) of the British National Curriculum.

EYFS emphasizes on 6 key areas of learning:

- Personal, Social & Emotional Development
- Communication, Language & Literacy
- Problem Solving, Reasoning & Numeracy
- Knowledge & Understanding of the World
- Physical Development
- Creative Development

Our comprehensive approach ensures every aspect of development is nurtured. It focuses on early literacy and positive character traits, such as cooperation and self-control, allowing students to develop the intellectual curiosity that creates good citizens and fuels success in the classroom and beyond.

## A Day at Bridge

Children may attend either our morning session (from 9 a.m. to 12 noon) or afternoon session (from 1 p.m. to 4 p.m.). Bridge Academy offers a safe and interactive learning environment which is specifically designed to meet the needs of young learners. Classrooms are well-resourced with appropriate equipment, materials, and modern teaching and learning technology.
